NOTES:

- All message services are billed in 256 bit increments, including any part thereof.
- Shore-to-ship fax is a manual re-keying service. Text messages can be faxed to Stratos and sent to the ship by a Stratos Operator.
- Data Reports (Position Reports). Price does not include terrestrial delivery.
 - 1 packet = Land mobile position report (latitude, longitude, date, time)
 - 2 packets = Maritime position report (latitude, longitude, date, time, course, speed)
 - 3 packets = Application-specific data reports
- Manual Poll Commands are those generated by Stratos Customer Support and include all DNID Download and Delete DNID commands, as well as any of the following that are requested to be performed by Stratos, in the absence of a software application that is capable of issuing Poll Commands:
 - Program Position Reporting Interval, Start Position Reporting, Stop Position Reporting, Request a Position on demand.
 - Note that Changing Position Reporting Interval requires Stop, Program, and Start commands.
- Register online** for **StratosMail** shore-to-ship e-mail service
Choose **Internet Services / StratosMail** at our secure website www.stratosglobal.com
- To send Internet e-mail** from an Inmarsat-C terminal, **when NOT using Stratos MCC shipboard software**:
 - Use Special Access Code EMAIL (or 63)
 - Select LES: 02 for AORW (044), 102 for AORE (144), 202 for POR (244), 302 for IOR (344)
 - Use **TO+ address** on the first line of the message, where **address** is the **Internet e-mail address** that will receive the message
